

Embassy of India

Yangon

Advisory

Dear fellow Indians,

The Mission has observed in recent past that some IT companies engaged in digital scamming/ forge crypto activities located in remote eastern border areas of Myanmar are recruiting Indian workers from different places through their recruiting agents on the pretext of potential employment opportunities in IT sector. After initial recruitment, Indian workers are being facilitated to enter Myanmar illegally without proper documentation leading to entrapment of Indian workers.

In view of the above, Indian nationals are hereby requested to exercise due caution and verify the antecedents of the recruiting agents. It is advisable to have all requisite information (job description, company details, location, employment contract etc.) before accepting any employment that has been offered.
